

FOCUS GROUPS

Throughout the last 6 months of the project, up to 3 focus groups have been held, whose main theme has been the good sustainable practices applied in environmental testing laboratories.

The 1st focus group was held in Nicosia, Cyprus on May 19th and was organized by the University of Cyprus, a partner of the Project. There were 26 participants from various organizations all over Cyprus, ranging from governmental departments such as the Water Development Department, to private laboratories providing services to customers dealing with environmental testing.

The 2nd focus group, organized by NOVOTEC, leader of the project and Fundación Equipo Humano, was held on June 9th in Valencia (Spain). Representatives from different training centers, universities, VET schools, research units, experts from participating laboratories, shared their experiences regarding good environmental practices.

The last focus group was held in Radom (Poland) on June 14th and in this case the event was organized by the partner Institute for Sustainable Technologies - National Research Institute. The participants were over 30 representatives of universities, VET schools, research units, students and experts from participating laboratories.

BEST PRACTICES WORKSHOP

During 2nd ECVET-Lab Partners Meeting, held on June 21st in Nicosia, a workshop was held on the selection criteria of the Best Practices have to represent all topics, labs, other stakeholders and countries. Other criteria taken into account were the impact over environmental improvement, technical and financial feasibility and innovation.

BEST PRACTICES

After selecting a group of **European Environmental Testing Laboratories**, these labs have actively participated in the project sharing their Best Environmental Practices.

A selection of the **40 Best Practices** will be published on the website in the coming weeks. Please stay tuned to our social networks!

SAVE THE DATE!

The **final conference of ECVET-Lab** will take place in Brussels on 20 September 2018. Further details will be released in the coming months. We will wait for you!
